

Arthur Torres

Senior Full Stack Developer • Computer Engineer • AI-Powered Engineering

San Cristóbal, Venezuela · arthurtorres75@gmail.com · github.com/ArthurTorres75

PROFILE

Senior Full Stack Developer & Computer Engineer with 10+ years of experience across web, mobile, and cloud. Specialist in Clean / Hexagonal Architecture, TDD, and AI-assisted engineering (Spec-Driven Development, Claude Code, GitHub Copilot) to ship production-quality systems fast.

CORE SKILLS

Frontend Angular, React, Next.js, TypeScript, React Native, Tailwind CSS

Backend Node.js, NestJS, Express, PHP / Laravel, Prisma ORM, REST / JWT

Data & Cloud PostgreSQL, MongoDB, MySQL, AWS, Azure, Docker / CI-CD

Productivity Microsoft Excel, ExcelJS, Stripe, Microsoft Graph API, Dynamics 365, Supabase

EXPERIENCE

Chamco Digital — Full Stack Developer (Next.js + Azure)

2026

- Built a 20+ page enterprise site with admin CMS, Stripe checkout, Dynamics 365 + Graph API integration; Lighthouse 90+ SEO, full CI/CD to Vercel.

Fibotech — Frontend Developer (Remote, Mexico)

2025

- Frontend across multiple systems with Next.js & Tailwind; advanced data viz (Plotly, Chart.js) and Google Maps, optimized for millions of records. Corporate site on Strapi CMS + Vercel.

Crazy Imagine Software — Full Stack Developer (MERN)

2020 – Present

- Delivered custom project-management and education platforms: timelines, payment tracking, automated Excel/PDF reports, and email automation (Supabase, MailerLite, SendGrid).
- Mobile & backend work across products with React Native, NestJS, Prisma, PostgreSQL, AWS, and Stripe.

Zippytech — Front End Developer (Angular)

2018 – 2020

- Enterprise Angular systems: access control, advanced filtering, dashboards, multi-format reporting.

SELECTED PROJECTS (AI-ASSISTED)

- Mountain Portfolio — explorable 3D portfolio (Next.js, Three.js).
- Echo-Vane — real-time 2-player co-op mystery game (React 19, Supabase, Kaboom.js).
- School Management System — modular full-stack platform (Next.js, Prisma, PostgreSQL).

CERTIFICATIONS

AI Development from 0 to Production (MoureDev · Big School, 2026) · **Elementor Master 2026** (Udemy, 2026) · **AWS Technical Fundamentals** (Amazon Skill Builder, in progress)

Sololearn: JavaScript, SQL, PHP, HTML, CSS (2017–2022).

EDUCATION

Computer Engineering (Ingeniero en Informática) — University Institute of Agro-Industrial Technology, 2008–2013.

LANGUAGES

Spanish (native) · English (fluent).
