

Arthur Torres

Senior Full Stack Developer · Computer Engineer · AI-Powered Engineering

San Cristóbal, Venezuela · arthurtorres75@gmail.com · github.com/ArthurTorres

PROFILE

Computer Engineer and Senior Full Stack Developer with 10+ years of experience (8 professional + 2 building web applications during university) across web, mobile, and cloud platforms. Proficient in Clean / Hexagonal Architecture, Atomic Design, and test-driven development. Applies Specification Driven Development (SDD) with AI — a structured proposal → spec → design → tasks → implementation workflow that keeps AI-generated code aligned with real requirements at every step. Also leverages vibe coding and AI-assisted engineering (Claude Code, GitHub Copilot) to prototype and ship production-quality systems with exceptional speed.

TECHNICAL SKILLS

Frontend

Angular	8 yrs
React	5 yrs
Next.js	5 yrs
TypeScript	5 yrs
React Native	2 yrs
Tailwind CSS	4 yrs

Backend

Node.js	5 yrs
NestJS	5 yrs
Express	5 yrs
PHP / Laravel	3 yrs
Prisma ORM	5 yrs
REST / JWT	8 yrs

Data & Cloud

PostgreSQL	5 yrs
MongoDB	5 yrs
MySQL	8 yrs
AWS	4 yrs
Azure	1 yrs
Docker / CI-CD	7 yrs

Also: Stripe · Auth.js / OAuth 2.0 / JWT · Microsoft Graph API · Microsoft Dynamics 365 · Google Analytics 4 · Supabase · Terraform · GoJS · D3 · SendGrid · ExcelJS · Claude Code · GitHub Copilot

EXPERIENCE

Chamco Digital (chamcodigital.com)

Apr. 2026 – May 2026

Full Stack Developer · Next.js + Azure · Remote / Freelance

Designed and delivered the full enterprise website from scratch in a single milestone:

- 20+ public pages: Home, 9 Services, 7 Industries, Blog/Insights Hub, Learning, Partners, Contact.
- Admin CMS with full CRUD for posts, categories, tags, and user management.
- Migrated blog from WordPress REST API to Azure PostgreSQL (Prisma) — WordPress fully removed.
- Training registrations integrated with Microsoft Dynamics 365 REST API + automated email via Microsoft Graph API.
- Stripe checkout session + webhook verification for paid training courses.
- Azure Blob Storage for media uploads; Google Analytics 4 + Search Console (142 URLs indexed).
- Lighthouse 90+ SEO / 80+ desktop performance on all major pages.
- Full GitHub Actions CI/CD pipeline deployed to Vercel.

Tech: Next.js 16 (App Router), React 19, TypeScript, Tailwind CSS v4, Prisma v7, Azure PostgreSQL, Auth.js v5, Azure Blob Storage, Stripe, Microsoft Dynamics 365, Microsoft Graph API, Vercel, GitHub Actions.

Crazy Imagine Software

Sep. 2020 – Present

MyMoldTech + School System · Full Stack Developer (MERN)

Replaced a manual SharePoint / Neurelo-based workflow with a custom project management platform: client-defined projects, custom phases, interactive timeline, payment tracking, and automated Excel/PDF report generation. Deployed on Hostinger. On a parallel educational platform, automated enrollment reminder emails via Supabase cron jobs + edge functions integrated with MailerLite.

Tech: React, Node.js, Express, MongoDB, Supabase, MailerLite API, TailwindCSS, JWT, ExcelJS, PostgreSQL, Hostinger.

Arthur Torres

Senior Full Stack Developer · Computer Engineer · AI-Powered Engineering

San Cristóbal, Venezuela · arthurtorres75@gmail.com · github.com/ArthurTorres

Speedy Delivery · Full Stack Mobile Developer (React Native + NestJS)

- Biometric authentication, stack/tab navigation, mobile-first UI with NativeWind.
- Login, session management, role-based access control.
- Subscription logic via cron jobs; email delivery with SendGrid.
- Backend: NestJS + Prisma ORM + PostgreSQL — users, sessions, products, orders.

Tech: React Native, Expo, NativeWind, React Navigation, NestJS, Prisma ORM, PostgreSQL, JWT, SendGrid.

OtherWorld Gift · Full Stack Developer

Automated Excel/PDF reporting, full CRUD modules, sales authorization with credit control, inventory management, cron jobs with timezone support, and a cash management system tracking revenue, payments, and bank transfers. Managed AWS infrastructure and integrated payment systems.

Tech: NestJS, Prisma, PostgreSQL, AWS, Stripe, TailwindCSS.

Piggyback Network · Full Stack Developer

Built NestJS + MongoDB backend and Next.js + MUI frontend from Figma designs. Fully responsive.

Tech: Next.js, NestJS, MongoDB, MUI, TypeScript, Axios.

Little Taller · Front End Developer

Multiple client projects in React + Tailwind CSS / MUI: Fooster Cooperative (Firebase + Vercel), Avant (React + MUI), Earkmarkz (React + Tailwind). TypeScript enforced across all projects.

Tech: React, TypeScript, Tailwind CSS, Material-UI, Firebase, Vercel.

Montrix · Front End Developer

Large Angular project with Angular Material, SCSS, and AWS cloud integration. Solved complex inter-component data sharing.

Tech: Angular, Angular Material, SCSS, AWS.

Cloudshim · Front End Developer

Data visualization and diagramming in Angular using D3 and GoJS with custom styles.

Tech: Angular, Angular Material, D3, GoJS.

Zippytech · Remote

Feb. 2018 – Sep. 2020

Front End Developer

Developed enterprise Angular systems with access control, advanced table filtering, multi-format report generation, dashboards with dynamic visualizations, image uploads, and route tracking.

Tech: Angular, Angular Material, Bootstrap, custom CSS / SCSS.

PERSONAL PROJECTS · AI-ASSISTED DEVELOPMENT

Mountain Portfolio

2025

Interactive 3D Portfolio · Vibe Coding

Immersive personal portfolio built as an explorable 3D world — terrain generation, character controller, dynamic lighting, and camera system, all inside a Next.js app. Rapid prototype-to-production flow using AI-assisted development.

Tech: Next.js, TypeScript, Three.js, Tailwind CSS, Vitest.

Echo-Vane — Hackathon CIS (Crazy Imagine)

2025

2-Player Co-op Mystery Game · Vibe Coding

Victorian London mystery game where two players solve a crime scene together without verbal communication — one sees the present, the other sees spectral echoes of the past. Real-time synchronization via Supabase; multilingual support with i18next. Built end-to-end during a Crazy Imagine hackathon using vibe coding with AI.

Tech: React 19, Kaboom.js, Supabase (real-time), i18next, Vite, TypeScript, pnpm.

Arthur Torres

Senior Full Stack Developer · Computer Engineer · AI-Powered Engineering

San Cristóbal, Venezuela · arthurtorres75@gmail.com · github.com/ArthurTorres

School Management System

2025

Full Stack Web App · Vibe Coding

Full-featured school management platform with modular architecture: students, courses, enrollment, grades, and role-based access. Clean separation of UI, services, and data layers.

Tech: Next.js, TypeScript, Prisma ORM, PostgreSQL, shadcn/ui, Tailwind CSS, Vitest.

Personal Portfolio

2024 – 2025

Developer Portfolio · Vibe Coding

Personal portfolio site built with Next.js Pages Router, custom hooks, and Vitest test suite.

Tech: Next.js, TypeScript, Tailwind CSS, Vitest.

EDUCATION

Instituto Universitario de Tecnología Agro Industrial

July 2013

Computer Engineer — Ingeniero en Informática
